GREVAS

Bursich hires senior structural engineer

POTTSTOWN — Civil engineering and surveying firm Bursich Associates has enhanced its structural design capabilities with the recent hiring of Mark A. Grevas, P.E. in the capacity of senior structural engineer. In this role, he will head up the structural design of bridges, wastewater treatment facilities, and assorted building structures.

Over his 33-year career, Grevas has assumed leadership roles on dozens of projects in Pennsylvania, Metropolitan New York, and Connecticut. His projects have included bridges, mass transit, and facilities including professional sports stadiums for clients including PennDOT and the Pennsylvania Turnpike Commission.

“Mark is a seasoned veteran in our industry and will bring a high level of experience to our structural engineering efforts,” said President Scott A. Exley, P.E. “His extensive experience will be of great value to our transportation, municipal, and private sector clients.”

Grevas and his wife reside in Exeter Township. He graduated from the State University of New York in 1980 with a bachelor's degree in wood products engineering. Grevas is a member of the American Society of Highway Engineers — Delaware Valley Chapter.

Bursich Associates Inc., founded in 1972, is an engineering, planning, and land surveying firm based in Pottstown, with an additional location in Bucks County. The firm specializes in the design of roads and bridges; water and wastewater facilities; land development; stormwater management solutions; high-definition 3D laser scanning, and land surveying throughout Pennsylvania. With a staff of 40 professionals, Bursich services local, county, state, and federal government within the public sector and residential, commercial, industrial, and institutional clients in the private sector.
