

Highway Engineer, Project Manager

Bursich is seeking an experienced highway engineer for a project manager position in our Pottstown office. The position requires a B.S. in Civil Engineering with a minimum 10 years experience in highway design and project management. P.E. registration required.

Position summary is as follows:

- Proficient in highway design and management
- Responsible for project design by leading and supervising a team of project engineers, project designers, and CADD technicians to complete design and preparation of bid documents
- Perform public presentations on projects at public meetings and for environmental agencies
- Possesses excellent verbal and written communication skills
- Ensures client satisfaction through delivery of high-quality design services within established timelines and budgets
- Responsible for marketing to PennDOT and the Pennsylvania Turnpike. Develop letters of interest, technical and price proposals, and presentations to clients at interviews to win the work
- Monitor schedules, budgets, and profitability reports, and react quickly to correct negative trends
