Bursich Senior Project Engineer George Wrigley, standing at right, speaks Sept. 18 to operators at the Oaks PA waste water plant.

SANATOGA PA – [Lower Pottstown \(PA\) Township](#)'s engineering firm of record, Sanatoga-based [Bursich Associates Inc.](#), was a luncheon co-sponsor of the fall meeting of the [Eastern Pennsylvania Water Pollution Control Operators Association](#), held Sept. 18 (2009) at the Oaks PA waste water treatment facility.

Bursich, headquartered at [2129 E. High St., Pottstown PA](#), set up a tabletop exhibit during the meeting to showcase its involvement in providing government sector services and waste water treatment facility engineering. Bursich Senior Project Engineer George Wrigley, of the company's Southampton PA office, also gave a tour through and presentation on the Oaks plant, which is owned and operated by the [Lower Perkiomen Valley Regional Sewer Authority](#).

One important feature of the plant, demonstrated by Wrigley, is its ability to have an operator control the speed and sequence of five different pumps from a single, touch-sensitive computer terminal using a graphic interface.

Bursich was founded in 1972. Its staff of 50 provides engineering, planning, and land surveying services throughout Pennsylvania.
